

## Keynote Presentation by:

### **Teresa Boynton, MS, OTR, CEES, CSPHP**

Teresa has been an occupational therapist for over 25 years. As a result of working in an outpatient rehab clinic for over 15 years, she is passionate about preventing employee injuries. For the past 11 years, she's been the ergonomics and injury prevention specialist for Banner Health, involved in implementing and supporting safe patient handling programs. Along with Banner team members, she assisted in developing and implementing a bedside mobility assessment tool for nurses.

### **Linda Stevens, DNP, RN-BC, CPHQ, CSPHP**

Linda developed and implemented a Safe Patient Handling Program at the University of Wisconsin Hospital and Clinics as the organization's Safe Patient Handling Coordinator beginning in 2010. After being promoted to Director of Nursing Quality and Safety, she has trained others to fill the role of Safe Patient Handling Coordinator. In addition, she is the executive sponsor for the organizational initiatives related to inpatient fall prevention and improvement of patient mobility.

### **Dee Kumpar, MBA, BSN, RN, CSPHP**

Dee has more than 30 years of experience as a registered nurse in Surgery, Labor and Delivery, Management, Employee Health, and Corporate Risk Management. Prior to working for Hill-Rom she worked with a major Health System where she participated in the development and implementation of a system-wide safe patient handling program; the program was awarded the Best Practice award by the VA at the SPHM 2008 conference. As a consultant with Hill-Rom Dee works to engage health care systems in program development including strategies to address culture change, ensure a successful program launch, and achieve desired outcomes relative to injury prevention practices and improved patient outcomes.

Provider approved by the California Board of Registered Nursing,  
Provider # CEP 15826 for 1 Contact Hour.

Full refunds will be provided to registered participants who cancel a minimum of 10 days prior to the scheduled session. No refund is offered for cancellations received less than 10 days prior to the session.

# Fall Prevention

**March 11<sup>th</sup>, 2015**

**@ 2:00 PM Eastern**  
(60 minutes)

**1 Contact  
Hour**

**ASPHP Members:**

**\$25.00**

**Non-Member:**

**\$75.00**

*Upon completion of this webinar  
the participants will be able to:*

- ✓ **Understand fall prevalence and risk**
- ✓ **Explore fall prevention education and outcomes at University of Wisconsin**
- ✓ **Review Fall Assessment and practical application at Banner**

This presentation provides a review of the rate, incidence and type of falls that occur today in acute care. Proper assessment, education and technology resources are combined to provide the right tools in the right situation to mitigate risk and reduce fall rates. Learn how two extraordinary health systems used this information to weave SPHM into their fall prevention practices.

**Technology Requirements** PC-based attendees Required: Windows® 7, Vista, XP or 2003 Server  
Macintosh®-based attendees Required: Mac OS® X 10.5 or newer
