

Keynote Presentation by:

Terri Burgess,
MSPT, CSPHP, CEASII

Terri Burgess graduated from the State University of NY at Stony Brook and received a Master of Science in Physical Therapy from Temple University. Terri has a long history of patient

care in Physical Therapy and has been an Injury Prevention Educator at Christiana Care Health System since 2005. Her responsibilities include the student nurse affiliate program, the Christiana Hospital Emergency Department, the Radiology Department, the orientation classes in safe patient handling for new employees at Christiana Care and the PT and OT departments. She has presented at the Delaware State Radiology Conference, at the Safe Patient Handling Conference in Florida, at the ASPHP Regional Conference and at the American College of Emergency Physicians Scientific Assembly.

Provider approved by the California Board of Registered Nursing, Provider # CEP 15826 for 1 Contact Hour.

Full refunds will be provided to registered participants who cancel a minimum of 10 days prior to the scheduled session. No refund is offered for cancellations received less than 10 days prior to the session.

Safe Patient Handling Issues in Radiology

October 8th, 2014
@ 2:00 PM Eastern
(60 minutes)

**1 Contact
Hour**

ASPHP Members:
\$25.00

Non-Member:
\$75.00

*Upon completion of this webinar
the participants will be able to:*

- ✓ Describe the types of patient transfers that occur in Radiology Departments
- ✓ Describe the barriers to implementing a SPH program in Radiology
- ✓ Identify the lifting equipment that would best meet the needs in Radiology
- ✓ Outline the benefits to using lifting equipment to transfer patients in Radiology

This webinar will give you some practical ideas and solutions to implementing and maintaining a Safe Patient Handling Program in various areas of Radiology such as X-ray, CAT Scan, MRI and Ultrasound. The webinar will explain the patient handling risks and challenges of Radiology and the journey we have been on in our facility to meet the needs of the technologists and nurses who work in these areas.

Technology Requirements PC-based attendees Required: Windows® 7, Vista, XP or 2003 Server
Macintosh®-based attendees Required: Mac OS® X 10.5 or newer
