The ASPHP Certification Group has established nine core competencies; identified as subject areas beneficial for those leading and supporting SPHM programs.

While an Associate applicant is not expected to be proficient in all of these, these are the skill sets that the certification committee will examine in the applicant's work history, recommendations, professional development and resume. We encourage applicants for Associate certification to ensure that their submission materials include evidence in the competencies applicable to the scope of Associate certification.

In addition, these nine skill sets are what we encourage certificants to continue to build through future professional development/continuing education.

NINE CORE COMPETENCIES: Skill Areas

Financial Acumen - Demonstrated through budgeting, cost justification and/or vendor negotiation

Team Leadership - Demonstrated through assembling and leading a cross functional team

Policy and Procedure Deployment - Demonstrated through the development, modification and implementation of SPH P&P

Training Deployment - Demonstrated by development and delivery of training

Clinical Knowledge & Experience - Demonstrated through clinical job duties

Risk Analysis & Control - Demonstrated through formal analyses and linking control measures to risk results

Program Promotion - Demonstrated by promoting the benefits and/or results of the SPH program internally and externally

Program Audit - Demonstrated by a formal review and reporting of program performance

Unit Specific Customization - Demonstrated by adapting procedures to unit specific and patient specific needs.
